Mike,

CEM Sales and Service was Contracted by MIC/CCS JV to do a retrofit on an outdoor swimming pool at Hill AFB Utah utilizing the Mytha Pool system.

The project was especially challenging in that the walls of the original pool had failed and were collapsing. Together we engineered a fix and worked with Myrtha to retrofit their pool system into the mix. The result was a beautifully finished high functioning swimming pool that the government is very happy with.

Thank You,

Jeff Colegrove
