To Whom It May Concern:

USA Swimming, is pleased to once again partner with Myrtha Pools, one of the world's leading companies in the design, manufacture and installation of competition pools, as their exclusive pool partner through 2020. Myrtha Pools are used for the major swimming events around the world including the Olympic Games and World Swimming Championships, and are also chosen by USA Swimming for the U.S. Olympic Team Trials.

For the past 12 years, Myrtha Pools has been the choice for USA Swimming's premier swimming event, the U.S. Olympic Swimming Team Trials. Myrtha Pools' exacting precision and speed of installation have allowed USA Swimming to hold this event in venues never possible prior to using the Myrtha technology. For this reason, we have been able to increase our exposure and attendance at these events substantially.

USA Swimming's has chosen to partner with Myrtha Pools based not only on their experience with temporary venues, but also on their reputation for building world-class facilities both in the U.S. and internationally. USA Swimming has seen, from start to finish, examples of their permanent installations in several facilities around the U.S., such as the Spire Institute in Geneva, OH and Northside ISD in San Antonio, TX and have chosen these facilities to host some of our major competitions.

USA Swimming's facilities department has worked closely with many entities in developing their new facilities and always recommend they look at Myrtha Pools as their best option not only because of the precision installations and unparalleled technology but they also offer one of the most extensive warranties and have the lowest maintenance cost as compared to traditional construction.

While there are certainly many great products in the marketplace, we believe that Myrtha Pools are the finest and would recommend them to any facility that is installing a new or renovating an existing pool. We are proud to have them as our partner.

Sincerely,

A handwritten signature in cursive script that reads "Chuck Wielgus".

Chuck Wielgus, Executive Director
